

# Certified Community Behavioral Health Clinic Program Development

FTI Consulting is an independent global business advisory firm dedicated to helping organizations manage change, mitigate risk and resolve disputes. Our Healthcare Risk Management & Advisory team serves the entire Healthcare ecosystem. Our team of subject matter experts include CPAs that authored CMS rules, regulations, and financial tools including the CCBHC cost report. We specialize technical assistance for the CCBHC demonstration: Cost report compliance, state oversight of CCBHCs, quality bonus payments, audit support, organizational transformation and strategic planning.

## Our Approach

### Strategy and Compliance

Our team of CPA and financial professionals can walk you through the CCBHC cost reporting process to establish a prospective payment system rate, understanding short term and long term goals while you build your CCBHC program. We guide you through Medicaid rules and help you create sustainable, efficient operations to make your CCBHC program successful.

### NATIONAL COUNCIL FOR MENTAL WELLBEING - BRONZE SPONSOR

FTI Consulting is excited to partner with the National Council to help transform the behavioral healthcare industry. We are happy to serve both states and clinics in developing their CCBHC programs by providing a complimentary 30-minute technical assistance call. Our specialty is cost reporting and PPS payment operations.

## What We Offer

### Program Expertise

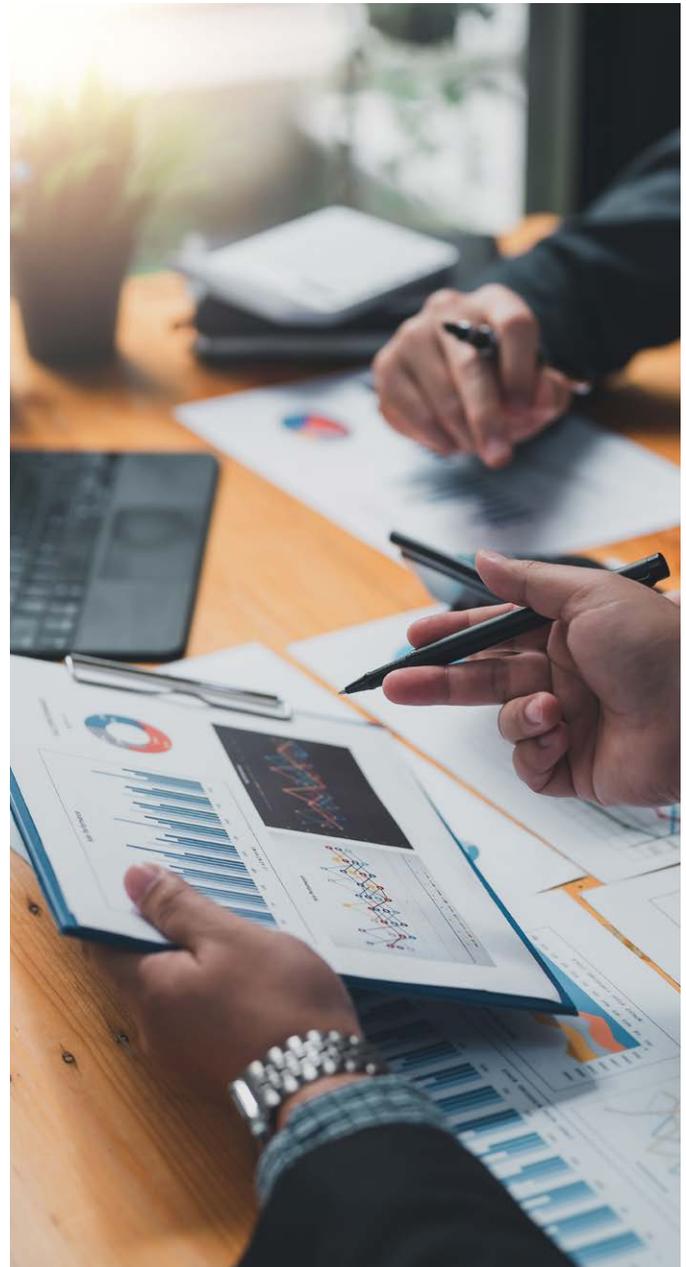

Our team at FTI Consulting has been involved with the CCBHC concept since the Protecting Access to Medicare Act passed in 2014. Our cost report experts helped design the original template in 2016 and the revised template in 2023 for states in the federal CCBHC demonstration. Our experience allows us to help you manage growth and cash flow while you transform your operations to join the demonstration or work under a state plan amendment. We will walk you through the financial aspects of the CCBHC and manage daily or monthly bundled prospective payments.

### Technical Assistance

Our expertise in the program allows us to help states and clinics set up prospective payment the right way to ensure patients continued access to quality behavioral healthcare. We offer technical assistance with all financial aspects of being a CCBHC including cost reporting, anticipated costs in the first year of operation, wraparound payments (where needed) and payment reconciliation.

### Reconciliation Support

Changing operations for prospective payments can be daunting. Our experts can help your finance teams modify their systems to handle bundled payments for services and reconcile Medicaid payments to ensure payment is correct.
