

Infrastructure and Precinct Advisory

Economic & Financial Consulting

Population growth pressures and evolving community expectations are influencing the way cities and regions are planned. In response, Governments and industry are changing the way in which infrastructure is planned and delivered.

WHY FTI CONSULTING

One global team

Being home to one of the world's leading economic and financial consulting practices, we can draw our deep expertise globally for specialist insight and knowledge.

Independence

With no audit practice, we are largely conflict-free and uniquely positioned to provide impartial advice and assistance.

Supporting your broader needs

As a multidisciplinary firm, FTI Consulting can give you access to 700+ global industry specialists and leading experts in commercial construction management services, communications, stakeholder engagement, regulatory systems, forensic accounting, disputes resolution, valuation, business transformation, and restructuring.

Hands-on experience

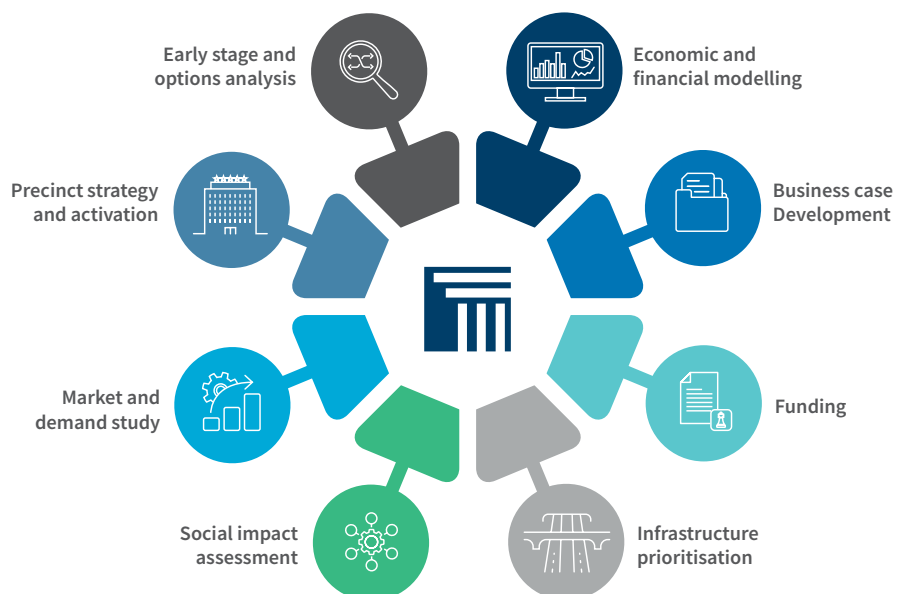

Our Australian professionals have senior level government, regulator and public service experience across multiple jurisdictions. Our global team includes former chief economists at the SEC, EU Commission and Hong Kong Competition Commission.

At FTI Consulting, we recognise this shifting landscape and partner with our clients to look at land use and infrastructure holistically. This approach supports decision making that enhances liveability for our communities.

Infrastructure strategy and delivery is complex as there are a range of stakeholders with varying needs at its core. We bring our deep technical expertise and a long track record of delivery to help our clients navigate this complexity and improve decision-making by providing evidence-based analysis and critical insights from the concept phase through to delivery of capital assets.

Our experts have a demonstrated track record for the provision of independent and rigorous economic and financial advice in relation to infrastructure projects from concept assessments through to the activation of public space. We work closely with our clients in both the public and private sector to solve complex challenges and to deliver outcomes by providing the following services:

OUR SERVICES
