Industry Expertise

Our industry groups are staffed with seasoned practitioners who possess many years of hands-on management and operational experience across major industries, and can apply this specialist knowledge to a range of matters.

Healthcare & Human Services

Australia's healthcare and human services systems are at a crossroads, shaped by the collision of groundbreaking innovation and technology, growing community needs and escalating financial pressures. From workforce shortages to rising costs, system reforms to market disruptions, today's environment requires bold solutions and a renewed focus on sustainable outcomes. Our purpose is simple: to deliver meaningful, measurable and sustainable care for all Australians. We combine a boutique approach with the strength of a global network, partnering with sector stakeholders to drive meaningful improvements across the full spectrum of health and care disciplines. We work with clients across the public, private and non-profit sectors to address their most pressing challenges and opportunities. Our focus areas align with the evolving needs of the healthcare, aged care, disability and human services sectors, ensuring that we deliver targeted, impactful and sustainable solutions.

Energy, Power & Products

Supporting you across the entire energy value chain, we deliver strategic, financial, operational, and regulatory advice to help navigate the complex dynamics of the evolving energy landscape. Our multidisciplinary team combines deep expertise in clean energy, the National Electricity Market, and broader power and utilities sectors to drive successful outcomes for businesses, investors, and policymakers.

Agribusiness

Helping you navigate global agribusiness trends, we provide strategic advice to identify opportunities, manage risks, and improve performance amid shifting consumer demands, rising commodity volatility, and increased investment across the sector. We offer deep industry knowledge and hands-on operational and business experience across all key agricultural sectors, delivering tailored solutions to businesses of all sizes throughout the Australian and global supply chain.

Construction, Projects & Assets

Providing end-to-end support across the asset lifecycle — helping you navigate technical, commercial and legal challenges in today's construction and infrastructure environment. Working with all stakeholders across the construction sector, we can mobilise quickly to prevent issues, manage project risks, resolve disputes, transform or restructure businesses, deliver pre-project economic forecasting and protect brand and reputation.

Retail & Consumer Products

Partnering with businesses and their leadership to drive transformation and performance improvement. Leveraging decades of retail and industry experience, we help you bridge capability gaps, address unforeseen events, and realise value from strategic initiatives. We help retailers find and retain value across four key areas: product, operations, financial strength, and event support, enabling them to seize opportunities and achieve lasting change in today's rapidly evolving landscape.

Mining

Drawing on deep mining industry knowledge from an owner, contractor, operator, economic and capital perspective, our expert advisors work seamlessly with senior management and boards to deliver value-focused outcomes. With a team that includes leaders with extensive hands-on experience in board, senior executive and advisory roles, we actively identify issues while pursuing and delivering solutions, without losing sight of the bigger picture. We have a deep understanding of mine value and commercial drivers and assist clients in identifying, optimising, and, where relevant, realising underlying resource value.

Private Equity

Working with the world's leading private equity firms, credit funds and investment banks, our consultants provide pragmatic, transaction and execution-oriented services throughout the transaction lifecycle. From origination to exit, we use knowledge-driven skill and experience, focusing on critical financial, commercial and operational opportunities, to help create and enhance enterprise value.

Government & Public Policy

Having decades of experience working in and for government, we bring deep expertise across multiple disciplines, including economics, finance, accounting, performance audit, program evaluation, and management skills.

Real Estate

Leveraging in-depth knowledge of corporate advisory and insolvency as they relate to the real estate industry, we act as independent advisors — specialising in helping clients improve profitability, restructure, reposition, or transact — ultimately driving successful real estate outcomes for their businesses.

Water & Utilities

Supporting government and private sector clients in navigating market challenges, we help develop best-practice water policies and effectively meet community expectations.
