

Working Capital Catalyst

Accelerating Cash Flow, Sustaining Efficiency

Rising volatility, wider bid-ask spreads and tightening funding mean companies without accessible assets are far more exposed to unexpected costs and refinancing risks. Working capital is always on the agenda, but few know how to turn it into immediate value. FTI Consulting's Working Capital Catalyst ("WCC") helps organizations unlock 10–20% of trapped cash in weeks and sustain another 40–50% through lasting process discipline.

Typical Improvement by Component

Typical DSO Reduction

8% - 15%

Typical DPO Extension

10% - 20%

Typical DIO Inventory Turn Improvements

10% - 15%

Get Started | Engagement Options

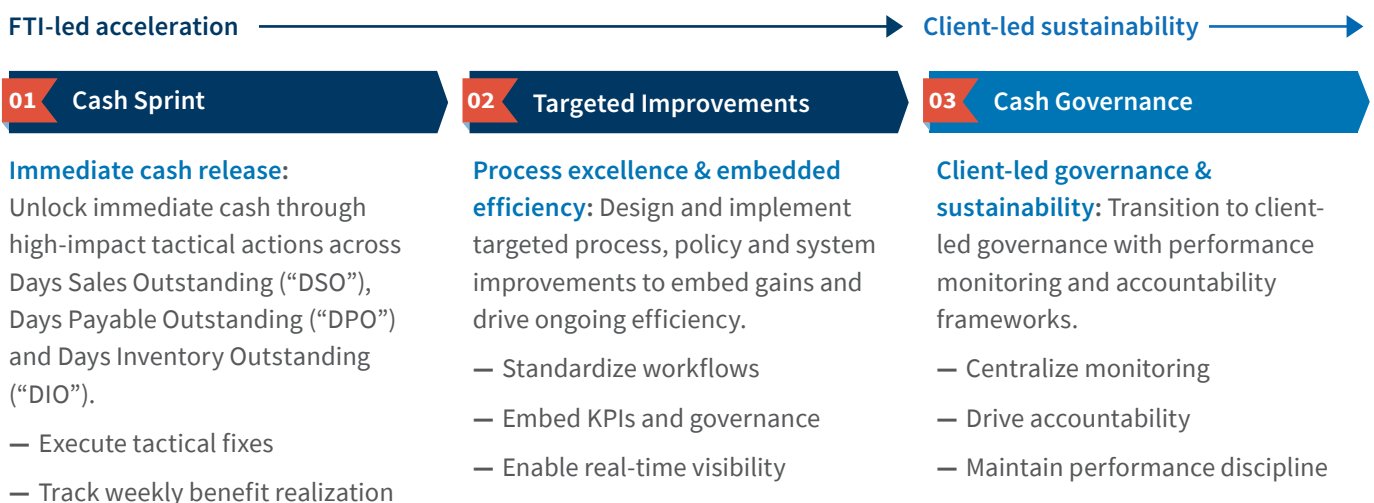

Two fast-track options let clients quickly assess or act on working capital opportunities:

- **Red Flag Assessment (~2–3 Days):** Quick scan to identify trapped-cash opportunities and headline benefits.
- **Targeted Opportunity (~2 Weeks):** Focused deep dive on priority levers that feed into the full WCC program.

From Immediate Cash to Lasting Discipline

The WCC Framework accelerates cash release using a focused, three-phase model. Through the FTI-led Cash Sprint and Sustainable Improvement phases, companies rapidly release trapped cash and embed process discipline to sustain long-term gains. Then, clients take the lead in Cash Governance to sustain results.
