

# Relativity e-Discovery Software

Our expert e-discovery services, when combined with the Relativity e-Discovery Software platform, can provide corporations, law firms and government agencies with a cost-effective and defensible solution for meeting their legal, regulatory and investigative needs.

## WHY FTI CONSULTING FOR RELATIVITY?

### Data reduction

Less data in the e-discovery process equals dramatically lower costs. Our experts proactively remediate redundant, old and trivial information, collect only what's necessary, cull data through early case assessments, and utilise analytics for smarter reviews. Through every step of the process, data reduction is documented and defensible.

### Process workflow

Our team can leverage defined templates and workflows, and recommend custom process enhancements to quickly and cost-effectively deliver results. We use these processes and templates to implement best practices and document final workflows for seamless integration into your business model.

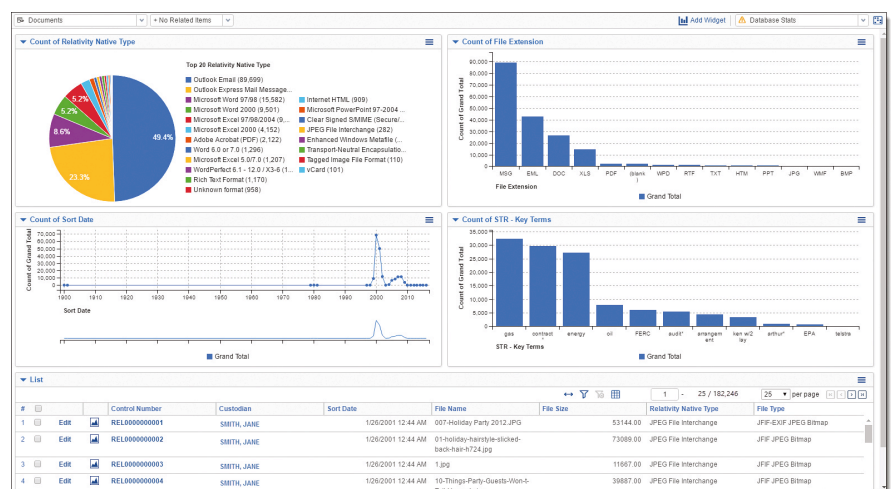

### Relativity expertise

We understand that every organisation is unique including vertical industry, litigation profile, company culture, geographical footprint, and technology infrastructure. We leverage our deep Relativity expertise to deliver custom solutions to meet client needs.

A single web-based platform, Relativity, serves as a review, analysis and production workhorse. It provides flexible and automated workflow capabilities, text analytics and computer-assisted review, visual data analysis tools, and integrated productions. The software is easy to use and scales to meet the demands of the largest matters, with cases as large as 90 million records hosted in Relativity.

Combining the familiar Relativity interface with the expertise of our consultants helps legal teams uncover matter insights quickly, and simultaneously reduce the total cost of e-discovery. Organisations rely on us to expose fraud, maintain regulatory compliance, reduce legal and IT costs, protect sensitive material, quickly find facts and harness organisational data to create business value. Innovative technology, expert services and tenacious problem-solving, provides our global clients with defensible and repeatable solutions.

Responsive search capabilities, flexible document organisation and workflows, coupled with the scale and performance of Relativity, provides confidence in handling the global requirements of the largest and most complex projects.

**WHY RELATIVITY COMBINED WITH FTI CONSULTING?**

**INTEGRATED DATA ANALYTICS**

**Uncover insights**

Turn any field of metadata or coding information into a widget to visualise your data and combine multiple fields to see where information, such as search terms, intersects with your custodians. Export visualisation widgets and dashboards to easily share findings with your team or client.

**Search like a pro**

Take the complexity out of the most advanced searches with an interactive search panel; and start searching right away to explore what’s there, even while data is still loading.

**Power review with text analytics**

Bring analytics into your workflow at any time for any case to follow an investigative pattern of thought and accelerate e-discovery document review.

**FAST, FLEXIBLE DOCUMENT REVIEW**

**Review accurately and efficiently**

A comprehensive feature set helps your team identify relevant issues, protect privileged information, and make informed coding decisions.

**Get up and running quickly**

Basic users can be up and running with the software in as little as 10 minutes of training with all the functionality they need to be productive.

**Create unique workflows**

Build and automate custom workflows that meet the unique needs of your team, whether it’s a time-sensitive regulatory notice, a class action, a Royal Commission, an ongoing litigation, or an investigation.

**COMPLETE PRODUCTION CAPABILITIES**

**Automate complex productions**

Save time and avoid common issues when pushing complex productions out the door.

**Meet tight deadlines**

From creating custom placeholders to using multiple mark-up sets, Relativity, combined with FTI Consulting, has the options you need to deliver productions on schedule.

**SUPPORTING YOUR BROADER NEEDS**

As a multidisciplinary firm, FTI Consulting can give you access to leading experts in forensic accounting, economics, valuations, corporate finance, restructuring, investigations, regulatory compliance, and strategic communications. Being truly global, we can support you wherever you need us without the barriers that inhibit partnerships operating as separate businesses in each country.
