THE END RESULT: DRIVING IMPACT

FTI Consulting has four decades of experience in making an impact on some of the world’s largest and most complex challenges, many of which have dominated global business, financial and public policy discourse. Every year, FTI Consulting helps more than 6,000 organisations globally transform the way they anticipate and respond to events, both at critical moments and for the long haul.

Shire
Impact: Shire plc faced an unsolicited takeover bid from U.S.-based AbbVie. FTI Consulting played a key role in helping Shire proactively communicate its value proposition as a standalone company while also remaining sufficiently positioned to allow for a successful deal. Shire ultimately remained an independent company, going on to acquire several companies over the last few years, culminating in a $32 billion transformative merger this year with Biomarin. Following the successful close of the transaction, Shire is now the leading global biotechnology company focused on rare diseases and highly specialised conditions.

US Airways-American Airlines
Impact: FTI Consulting’s subsidiary Compass Lexecon provided expert reports that demonstrated to the Department of Justice (“DOJ”) that the US Airways-American Airlines merger would create significant consumer benefits with minimal competitive harm and included heightened focus on analysing and rebutting the DOJ’s concern about Advantage pricing. A settlement was reached that required limited (and anticipated) concessions but kept the parties’ merger plan intact, allowing $1 billion in estimated annual synergies.

Level 3
Impact: Level 3 Communications, a Fortune 500 fibre optic and infrastructure connectivity company, announced its acquisition of local exchange carrier tw telecom. FTI Consulting partnered with Level 3 to advise, design and plan an integrated product, network and IT road map, a fully integrated new sales force and the integration of all functions across the organisation. As a result, Level 3 exceeded its earnings and synergy goals in the first full quarter post-close and maintained its sales momentum through the integration of the sales teams. The deal is on track to achieve the targeted $200 million in synergies.

Pioneer Iron and Steel
Impact: Global recession forced Chinese Pioneer Iron and Steel Group ("PISG") into liquidation. As the appointed liquidator, FTI Consulting experts were able to build a solid case showing that PISG’s majority shareholder had intentionally transferred assets outside of PISG to shield the company from creditor claims. Through external sources and Ringtail®, FTI Consulting’s proprietary e-discovery and document review software, we were able to secure a global settlement and substantial dividend in the range of 40 cents to the dollar for creditors.

SEPTA
Impact: After 10 years of mounting claims losses, the Office of General Counsel for SEPTA, the sixth largest transit system in the United States, hired FTI Consulting’s Global Insurance Services practice. FTI Consulting devised and led a three-year plan that lowered claims and litigation costs, improved efficiencies and better integrated the Office of General Counsel into SEPTA’s broader operations. The implementation of a case management system, formalised procedures, and a new culture of quality and accountability all led to a $20 million reduction in claims over a two-year period and more than $800,000 in labour cost savings.
